

## **More appointments available at Sindecuse Health Center**

*Posted by Joe VanDerBos for Sindecuse Health Center*

Sindecuse Health Center has made adjustments to make more appointments available for COVID-19-related assessment and testing. If you have symptoms including fever, cough, shortness of breath, or loss of taste or smell, try to make an appointment on the patient portal first. If the portal shows no openings available, we may be able to schedule you earlier by phone. If you've had close contact with someone with a confirmed positive case, call to schedule a telephone visit to start testing. If you're not experiencing symptoms nor had close contact, you may sign up for drive-thru testing times by calling. These are sometimes available on the day you call. Calls to the appointment line at (269) 387-3287 are answered in the order received.
